

STARC Armory

Des Moines, IA

Summary:

1993; structural concrete & structural steel framing with precast concrete and masonry-bearing steel for this highly specialized armory which houses the State Disaster Control Center, Federal Emergency Management Agency and the Iowa Communications Network statewide fiber optic system and full aerial reporting capabilities.

Special Features:

This was a fast track project based on schedule requirements provided by the Federal and State Governments and the National Guard. Neumann worked closely with the architect and governmental representatives to meet the demanding schedules and bring the project within budget. Up front grading and concrete work was completed ahead of schedule, allowing work to continue throughout the winter and eliminating any delays due to adverse weather.

**Due to the sensitive nature of the building's contents, only exterior photos are available.
